Mr. Lester Snow  
Executive Director, CalFed  
1416 Ninth Street, Suite 1155  
Sacramento, CA 95814

Dear Mr. Snow:

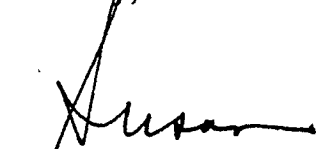

I would like to express my sincere appreciation for CalFed's commitment to promoting a dialogue of consensus and cooperation among all of the stakeholders in the Bay-Delta Program. I would especially like to thank you for your leadership and dedication to an inclusive process that recognizes all of disparate interests as participants in resolving the difficult issues which, in fact, affect all Californians.

Creating a reliable water supply while restoring and maintaining a healthy ecosystem is one of the most important issues facing California today. Finding a balance between industry and the environment is essential to maintaining the viability of our state.

I encourage the continuation of this strong commitment to a dialogue that emphasizes a variety of water management tools and restoration of the Bay-Delta ecosystem. Developing a comprehensive, long-term solution for the Bay-Delta system that meets the needs of water-users and the environment is as critical not only for Northern California, but is, in reality, essential to the prosperity of our entire state.

On behalf of my district, and all Californians, I thank you again for your commitment and dedication to this matter. I applaud your progress thus far and encourage your continued success.

Sincerely,

SUSAN A. DAVIS  
Assemblywoman, 76<sup>th</sup> District
